XTS / XTS PRO

AI-Powered

IoT Connected

XTS/XTS Pro seamlessly integrates artificial intelligence, IoT, sensor array, and latest LED technology into a state-of-the-art lighting system that will modernize lighting for the retail industry. With its built-in sensor, XTS can detect the color of the display object and self-adjust to enhance the color perception and light effect to beautify the display. XTS can also collect traffic data which can provide valuable insights such as popularity of display.

XTS / XTS PRO

XTS		XTS Pro	
Lighting			
CCT	2700K-6500K		
CRI	>90		
R9	>50		
Output	15W: 1200Lm; 30W: 2400Lm		
LED Rated Life	>50000hrs		
Beam Angle	15°, 24°, 36°		
Electrical			
Input voltage	120V		
Power	15W / 30W		
Efficacy	80Lm/W		
Control	AI/Sensor Controlled, App Controlled		
Dimming	1-100% via App		
Traffic Data Collection	--	Yes	
Mechanical			
Dimensions	15W: 70mm x 135mm; 30W: 80mm x 160mm		
Finish	Matte Black, Matte White		
Installation Type	H-Type Track, J-Type Track, Surface Mount, Pendant		
Rotation	360° (X-axis); 90° (Y-axis)		
Compliance and Warranty			
Certification	ETL, FCC, RoHS		
Warranty	5 Year Warranty
